

# Huntington Lake State Park

The boat ramp here and at other parks were taken over and made into fee areas--people already pay fuel, registration, sales, road use, and property tax. Move fee booth in front of camping/showers.

For visitors, this park and Millsite are tremendous assets. They are the only RV places in Emery County and are well maintained. Perhaps some expansion is in the future.

This park provides an area for camping and water sports in a beautiful setting; a beautiful place to ski, swim, fish, and enjoy the beauty of the lake in desert surroundings.
